

AIATA

Sunfinder 50

Designed in the North.
Made in the Med.

With Aiata, every journey is an invitation to 'Navigate to your dreams.' Our passion for exceptional boats creates unforgettable experiences, blending comfort, performance, and style. From sun-soaked family fun to speedy getaways, Aiata boats capture the essence of waterfront lifestyle.

Sunfinder

50

A Fast Family Boat with Spacious Open Areas

The Sunfinder 50 brings open-air boating to a new level of comfort and effortless luxury. Enhanced features and beautifully refined materials make it the perfect platform for sharing life on the water with friends and family.

The Sundfinder 50 is like a floating villa that is ideal for everything from open-air cruising to relaxed day anchoring.

A New Sense of Ease

Designed for easy days in the sun, the Sunfinder 50 features two spacious sunbeds, one aft and one on the bow. The boat can host up to 16 people, making it ideal for social days on the water. The wetbar offers generous fridge capacity and a well laid out cooking area. A TV integrated into the sofa provides relaxed entertainment after a day on the water.

Two cabins make the yacht well suited for longer trips and larger families. It comfortably sleeps five and includes a separate bathroom and toilet, adding convenience and ease to life on board.

Sunfinder 50

Technical Specifications

Length	15.35 m / 50.36 ft	Grey Water Tank (optional)	75 L / 20 gal
Width	4 m / 13.12 ft	Design Category	B/C
Draft	0.84 m / W ft	Number of Cabins	2
Fuel Capacity	1600 L / 423 gal	Number of Beds	2+1
Fresh Water Capacity	360 L / 95 gal	Max Speed*	45 kts
Black Water Tank	193 L / 51 gal	Heaviest Options excl. Gyro, 6 Pax, Tanks @50%	

Standard Equipments

HULL

Oyster White Gelcoat RAL 1013
Aft Platform
2 x Side Balconies with Actuators
Flexiteek
6 x Aluminium Cleats

INTERIOR LAYOUTS

Standard:
2 Cabins / Toilet with Separate Shower / Galley
Optional:
2 Cabins / 2 Toilets with Separate Shower

PERFORMANCE

Bow Thruster
Zipwake
3 x Honda V8 350 hp

NAVIGATION AND SAFETY

FRESH WATER SYSTEM

Fresh Water Tank 360 L
Fresh Water Filler Cap
Fresh Water Pump 20 L/min
Boiler 40 L
Fresh Water Level Gauge

WASTE WATER SYSTEM

Tank 193 L
Pump (Macerator)
Direct Sea Exit
Deck Discharge

Everyday Comforts on the Water

Well-integrated onboard amenities support longer and even more comfortable days on the water.

GRILL

Available as part of both the comfort wet bar and fishing wet bar configurations.

UNDERWATER LIGHT

Subtle lighting that enhances atmosphere around the yacht and the water after dark.

SOLAR PANELS

Integrated into the hardtop to generate renewable energy while at sea and support onboard systems.

RETRACTABLE ROOF

An electrically operated roof made from durable fabric, allowing a smooth transition between open-air cruising and sheltered comfort.

U-SHAPE BOW SOFA

Modular U-sofa creates a comfortable and social gathering space at the bow.

GALLEY UNIT

Designed to make onboard cooking practical, organised, and enjoyable.

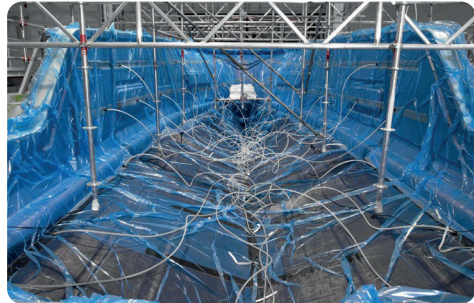

Structural Design & Build Quality

Aiata production follows established manufacturing processes that ensure safety, structural integrity, and consistent build quality. Advanced composite techniques, controlled production methods, and precision automation support accuracy and repeatability throughout the build.

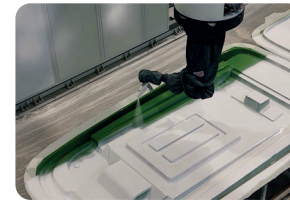

ADVANCED COMPOSITE CONSTRUCTION

Vacuum infusion allows us to build strong, lightweight structures by precisely controlling the resin content.

SOLAR ENERGY IN PRODUCTION

We use solar power to supply part of the electricity needed in our production, reducing reliance on external energy sources.

PRECISION MANUFACTURING

Advanced automation is integrated into our manufacturing process. Robots apply the gelcoat with consistent thickness and perform cutting tasks with high accuracy, ensuring clean lines, a flawless surface finish, and a reduced risk of imperfections across every boat.

LONG-TERM STRUCTURAL PROTECTION

Key structural components throughout the fleet are built using vinylester resin to enhance strength and durability. Its low water absorption and high resistance to hydrolysis help reduce the risk of osmotic degradation, protecting the structure over time in demanding marine conditions.

AIATA

Aiata derives from “Ay Ata”, signifying Grandfather Moon God, in Turkic mythology. Throughout history, the Moon has held a significant importance for seafarers due to its control over the Earth’s tides. Aiata is the guiding beacon of the seas.
