

AIATA

Wayfinder 38

Designed in the North.
Made in the Med.

With Aiata, every journey is an invitation to 'Navigate to your dreams.' Our passion for exceptional boats creates unforgettable experiences, blending comfort, performance, and style. From sun-soaked family fun to speedy getaways, Aiata boats capture the essence of waterfront lifestyle.

Wayfinder

38

More Room. More Comfort. More Life.

The Aiata Wayfinder 38 is designed to have larger open spaces than the average boat of its size. It is a practical and livable vessel with a distinct premium feel, making it the preferred choice for those prioritizing space, flexibility and home comfort.

One Boat. Countless Possibilities.

The pioneering modular design system allows you to customize your boat to perfectly match your needs, and even modify it post-purchase.

AFT

Fully customizable aft layout to match your needs: opt for a comfort-focused wetbar, a fishing friendly wetbar, or four additional seats to maximize seating capacity. An optional ski arch is available for water sports enthusiasts.

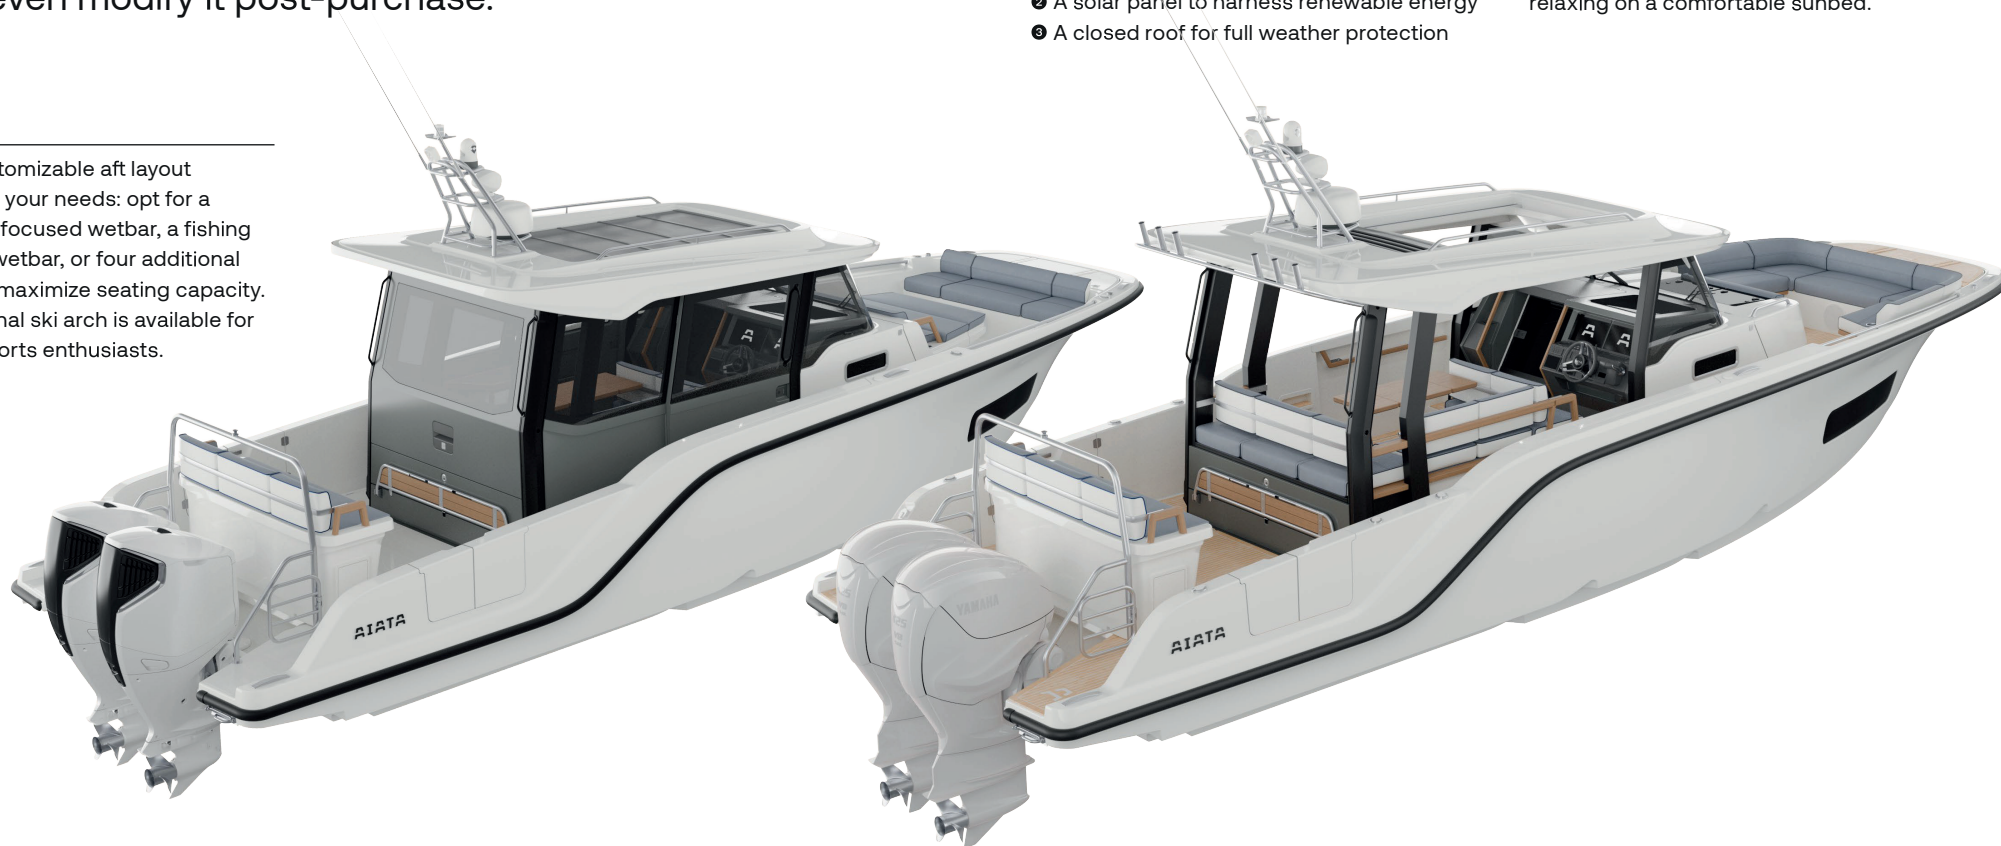

ROOF

Choose from three roof options:

- ① A retractable roof for open-air experiences
- ② A solar panel to harness renewable energy
- ③ A closed roof for full weather protection

BOW

The bow provides versatile options from social dining on the U-shaped sofa to relaxing on a comfortable sunbed.

ENGINES

Choose from a variety of engine options, ranging from 300 HP to 425 HP, offering optimal power and performance for every journey.

BULWARK DOORS

Enjoy easy access from the shore with added convenience. Add removable stairs to dive in when you're out on the water.

CABIN

Available as an open version for summer cruising or with a fully enclosed cabin designed for year-round use. Enjoy the exceptional flexibility to upgrade from an open to a closed cabin, even years after purchase.

FRONT CABIN

The generous front cabin offers high head space and fits a large double bed. Hull windows fill the space with natural light, creating a bright and inviting atmosphere.

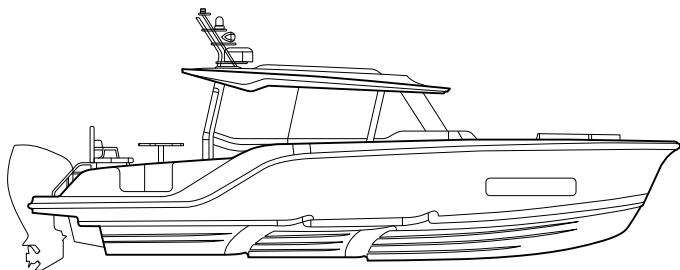

Next Level Modularity

The Wayfinder 38 stands out with its revolutionary modular design, allowing for complete customization and adaptability even after purchase. Understanding that boaters' needs and life situations evolve, the design is crafted to change with you. Adjust the bow seating by transforming the sofa into a sunbed, reconfigure the aft comfort-wetbar into additional seating, or add a ski arch for your water-skiing family. Aiata Wayfinder 38 is designed to match your needs.

Wayfinder 38

Technical Specifications

Length	11.57 m / 38 ft	Black Water Tank	112 L / 30 gal
Width	3.49 m / 11.45 ft	Grey Water Tank (Optional)	47 L / 12.4 gal
Draft	0.64 m / 2.1 ft	Design Category	B10/C12
Fuel Capacity	850 L / 224 gal	Number of Beds	1+1
Fresh Water Capacity	200 L / 53 gal	Max Speed*	53 kts
		Heaviest Options excl. Gyro, 6 Pax, Tanks @50%	

Standard Equipments

HULL

White Gelcoat RAL 9016
6 x Aluminium Cleats
Aft Rod Holders White Cap 60'

PERFORMANCE

Bow Thruster
Zipwake
2 x Honda V8 51 350 hp

NAVIGATION & SAFETY

Navigation Lights
Anchor Light
Electrical Bilge Pumps
Manual Bilge Pump
Telescopic Platform Ladder
Security Door at Cockpit

Smoke Detector
Handrails
Horn

MOORING & ANCHORING

Electric Windlass
Ultra Anchor (16 kg)
Chain 8 mm – 60 m
Fenders
Mooring Lines

ELECTRONICS

12" Gps Chartplotter
VHF
GPS Antenna
Transducer

ELECTRIC

2 x 12 V 95 Amp. Engine Batteries
3 x 12 V 115 Amp. Service Batteries
Battery Charger 12V/60 A
Battery Charger 12V/20 A for Bow Thruster
220 V Shore Power
Battery Isolator x 2

STEERING STATION

Foldable Teak Step at Helm Station
Pilot Console
Windscreen
2 x Windscreen Wipers
2 x Defroster Outlets
Cup Holder
Equipment Control Switches
Driver Seat
Steering Wheel (Hydraulic)
Wireless Phone Charger

FUEL SYSTEM

Aluminium Gasoline Tank 850 L
Gasoline Filler Cap
Gasoline Level Gauge

INTERIOR COMFORT (Wheelhouse)

Foldable Wheelhouse Seats
Upholstery – Overcast Gray
Convertible Table – Oak
Wood Works – Oak
Storage Under Seating
Indirect Led Lighting
Ceiling Light
USB outlet
49 L Fridge

INTERIOR COMFORT (Galley)

Laminate Galley Worktop

Tank 112 L
Pump (Macerator)
Gauge
Deck Discharge

Everyday Comforts on the Water

Well-integrated onboard amenities support longer and even more comfortable days on the water.

GRILL

Available as part of both the comfort wet bar and fishing wet bar configurations.

SOLAR PANELS

Integrated into the hardtop to generate renewable energy while at sea and support onboard systems.

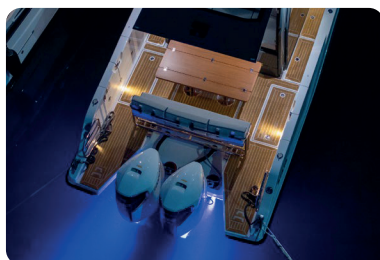

RETRACTABLE ROOF

An electrically operated roof made from durable fabric, allowing a smooth transition between open-air cruising and sheltered comfort.

U-SHAPE BOW SOFA

Modular U-sofa creates a comfortable and social gathering space at the bow.

UNDERWATER LIGHT

Subtle lighting that enhances atmosphere around the yacht and the water after dark.

GALLEY UNIT

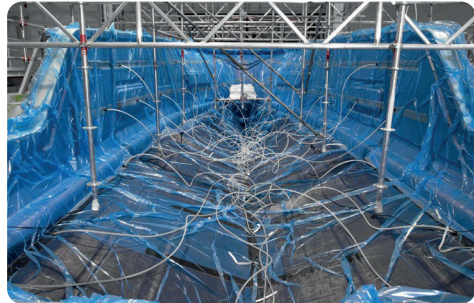

Designed to make onboard cooking practical, organised, and enjoyable.

Structural Design & Build Quality

Aiata production follows established manufacturing processes that ensure safety, structural integrity, and consistent build quality. Advanced composite techniques, controlled production methods, and precision automation support accuracy and repeatability throughout the build.

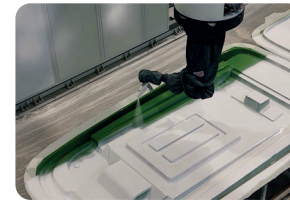

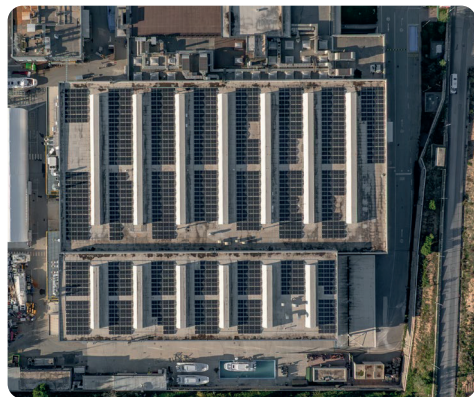

ADVANCED COMPOSITE CONSTRUCTION

Vacuum infusion allows us to build strong, lightweight structures by precisely controlling the resin content.

SOLAR ENERGY IN PRODUCTION

We use solar power to supply part of the electricity needed in our production, reducing reliance on external energy sources.

PRECISION MANUFACTURING

Advanced automation is integrated into our manufacturing process. Robots apply the gelcoat with consistent thickness and perform cutting tasks with high accuracy, ensuring clean lines, a flawless surface finish, and a reduced risk of imperfections across every boat.

LONG-TERM STRUCTURAL PROTECTION

Key structural components throughout the fleet are built using vinylester resin to enhance strength and durability. Its low water absorption and high resistance to hydrolysis help reduce the risk of osmotic degradation, protecting the structure over time in demanding marine conditions.

AIATA

Aiata derives from “Ay Ata”, signifying Grandfather Moon God, in Turkic mythology. Throughout history, the Moon has held a significant importance for seafarers due to its control over the Earth’s tides. Aiata is the guiding beacon of the seas.
