WAYFINDER 50

SUV Comfort on Board

While the Wayfinder 50 shares the same design philosophy, the very core of its hull structure and an impressive 15.35-meter length with its sister, the Sunfinder 50, it is guided by a distinctly different approach.

Designed by the renowned Finnish yacht designer Jarkko Jämsén, the Wayfinder 50 is meticulously crafted to deliver supreme protection, an expansive interior volume, and uncompromising comfort for extended stays on board.

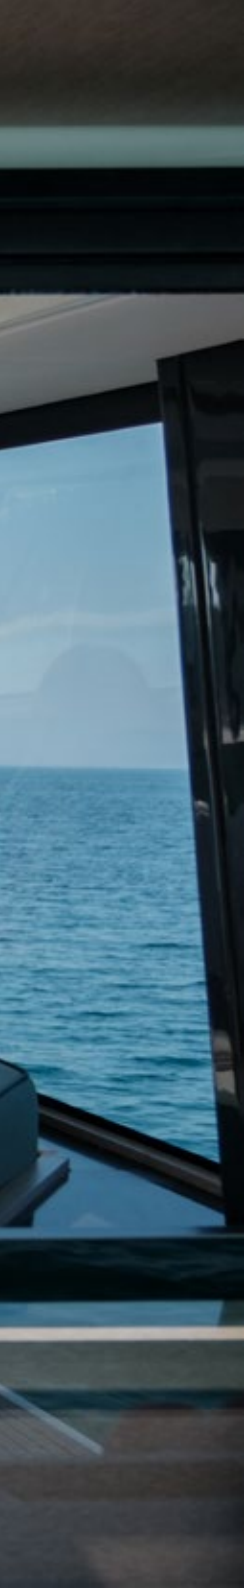

AIATA

A New Era of Comfort and Spaciousness.

Deep within the soul of this boat lies the spirit of exploration. It is in her very nature to venture beyond well-trodden routes and crowded marinas, navigating boldly toward the most remote, hidden bays on the map. As the waves crash against her hull outside, the uncompromising comfort, sheer spaciousness, and superior design within ensure that your only task is to savor the scenery in unparalleled tranquility.

Seamless Indoor-Outdoor Harmony.

The expansive, fully retractable sliding glass doors connecting the saloon to the aft deck transform the living space at the heart of the boat into a vast open-air lounge with a single touch. This brilliant design allows the cool comfort of the interior to merge effortlessly with the refreshing sea breeze outside.

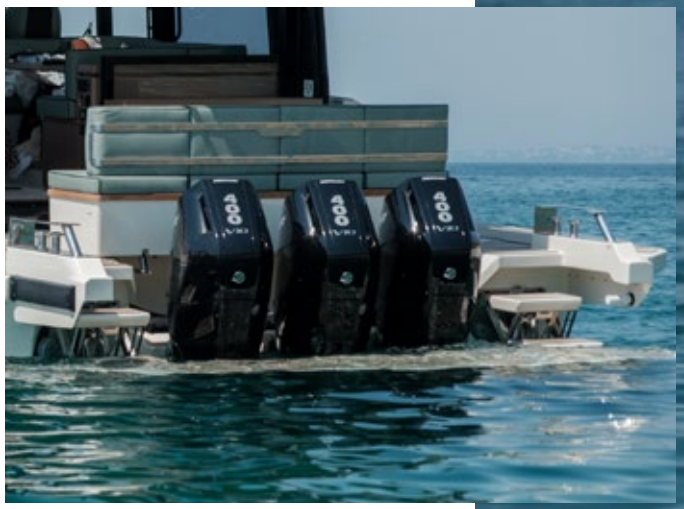

Limitless Entertainment. The Sea and Freedom.

Life with the Wayfinder 50 is not merely about following a charted course; it is about erasing every boundary on the map. Regardless of wind direction or wave height, the Wayfinder 50 provides not only unwavering confidence but also the courage to explore the most untouched azure waters as if they were your own backyard.

The crowning jewel of the aft deck is the expansive swim platform, which seamlessly brings the sea right to your feet. With the freedom of being just a single step away from the water, you can dive into the cool sea at first light, spend the entire day enjoying your water toys, or simply stretch out and feel the natural rhythm of the waves.

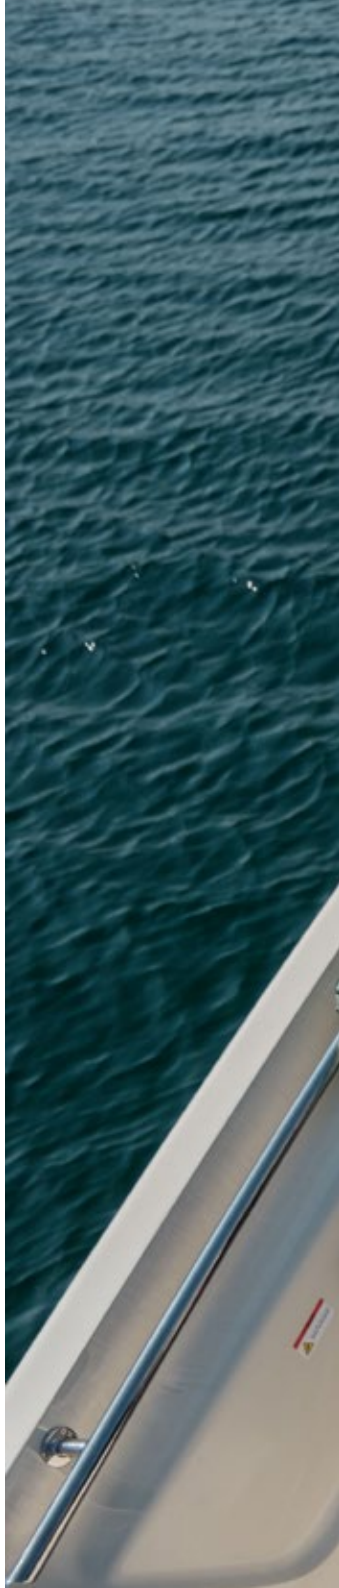

Al Fresco’ Outdoor Living.

The perfect gathering space for family and friends, this area is elegantly appointed with generous lounge seating and a versatile modular dining table. Whether it is a delightful lunch under the sun or a sophisticated evening feast beneath the stars... Thanks to the Wayfinder 50’s exceptional beam, your movement is never restricted, allowing you to socialize just as comfortably and freely as you would on the veranda of your own home.

The Cruising Experience.

Boasting a panoramic, single-piece windshield and an anti-reflective design to maximize your commanding view, the wheelhouse provides complete protection.

Replacing a clutter of complex switches, the state-of-the-art ‘Glass Bridge’ infrastructure features massive touchscreens that allow you to manage every onboard system from navigation and engine data to cabin climate control from one centralized hub. Shock-absorbing, suspension-mounted helm seats eliminate physical fatigue during long passages, while the integrated Joystick Piloting system allows you to dock this imposing 15-meter boat with pinpoint millimeter precision.

Your Private Sanctuary on the Water.

The AIATA Wayfinder 50 delivers a genuine “SUV” experience by capitalizing on the generous volume afforded by her 15-meter hull and you can host up to five guests in flawless comfort across two spacious cabins beautifully adorned with refined woodwork.

The forward master cabin, highlighted by its expansive bed and private en-suite bathroom, provides unparalleled privacy. Meanwhile, the midship cabin featuring a double bed and a stylish lounging sofa ensures that your guests will experience the “SUV” comfort. With independently configured shower and toilet facilities, first-class material selection, and an advanced climate control system, the interior of the Wayfinder 50 promises a habitat that erases all boundaries for true sea enthusiasts.
